### Summary

**Front End Developer with +4 years of experience** in developing interactive web applications using cutting-edge technologies, Skilled in React, HTML/CSS, JavaScript, Next.js, TypeScript, . I am eager to apply my skills to create impactful and efficient web applications.

**LinkedIn: 17,000+ followers**, actively engaged in sharing insights on frontend development.

### Professional Experience

**Front-End Developer, Banta Group** 09/2025 – Present | Tehran, Iran

- **Router v7, and React Hook Form**, ensuring modularity and maintainability.
- **Implemented internationalization (i18n)** for multi-language support, improving accessibility and global reach.
- **Leveraged Next.js Server-Side Rendering (SSR)** to improve initial page **load speed by up to 45%** and **SEO performance by 30%**, resulting in faster rendering, better indexing, and a smoother user experience.

**Front-End Developer, Sharif Konect Group** 04/2024 – 09/2025 | Tehran, Iran

- Architected a new, routing system for large-scale codebases, **improving route protection, scalability, and navigation performance**.
- Established automated **E2E testing with Cypress**, covering crucial user flows and high-traffic pages to ensure consistent reliability and client confidence.
- Authored and maintained **detailed technical documentation**, enabling faster developer onboarding and long term project maintainability.
- **Optimized the build process by 110%**, reducing build times and improving overall system efficiency through code refactoring and dependency cleanup

**Front-End Developer, Deputy of ICT of IRI Navy** 03/2023 – 02/2024 | Tehran, Iran

- Initiated React/TypeScript web app to define, track, and manage corporate assets across their lifecycle.
- Implemented dashboards with real-time status, location, maintenance, and usage metrics; added search, filter, and sort functionality.
- Built user interfaces for CRUD operations, custom fields, and metadata for diverse asset types
- Ensured clean, scalable, maintainable code with reusable components and organized architecture.

**Front-End Developer, Diaco Studio** 02/2022 – 02/2023 | Ahvaz, Iran

- Architected a full-featured Admin Panel application with a modern, responsive UI and high performance.
- Integrated user management functionalities enabling administrators to efficiently sort, filter, and manage user data.
- Pioneered a customizable interface supporting light/dark modes and multiple color themes for an enhanced user experience.
- Designed and maintained a scalable CRUD system to manage tickets, products, users, and leagues seamlessly.

### Professional Skills

HTML & CSS • JavaScript • TypeScript • ReactJs • NextJs • Git • TailwindCSS • Redux • React Query • Ant Design • Cypress • Material UI • Agile • Rest API

### Languages

English ● ● ● ● ● German ● ● ● ● ●
